

21 up CAN AM® MAVERICK COMMANDER AND MAVERICK SIDE ENCLOSURES

**Installation Instructions**

From the side of COMMANDER/MAVERICK®, install side cover against roll cage/frame so straps will engage roll bar along the top, rear and sides. Covers will attach to outside edge of roll cage and should be level and straight with cage frame. Attach straps starting at the top around roll cage leaving them slightly loose so side enclosure can be moved to align with roll cage. Repeat for other side.

Align web straps with hole just in front of door with corresponding screw on UTV. Remove screw and reinstall back through grommet in web straps. Tighten screw.

The strap at rear section of side enclosure attaches to door latch as shown.

Small 1 inch hook and loop strap wraps around roll bar where the rear support bar attaches as shown in image on left.

Attach plastic clip inside door from side enclosure.

The two 1.5 inch elastic straps with ABS clips insert between plastic panels on the door.

### IMPORTANT

Door must be unzipped to the location shown to the right so zipper will not bind. Damage to zipper or zipper slider from door not being unzipped far enough will not be covered under warranty.

(Optional) If using supplied self-adhesive Velcro clean areas with rubbing alcohol that correspond with adhesive Velcro that is attached to cover at shipping. If you do not use the adhesive Velcro remove the adhesive Velcro sections so only the soft loop is against plastic on machine.

Install supplied Velcro® around sides and door openings corresponding to Velcro® mate on cover if desired.

Attach clips with elastic to UTV as shown in image below.

Tighten all Velcro straps that were left loose to position side enclosure on UTV from step 1.

Doors can be zipped out and stowed on warmer days leaving only outer fabric on machine. It is also a good idea to zip outdoors for interstate travel or where high speeds are maintained for long distances.

Your new cover is guaranteed against any defects in material and workmanship for 1 year from the date of purchase. Should any problems arise, please contact your dealer. No warranty card is necessary.

Your UTV has several warning and caution labels around the machine that may be covered when this cover is installed. It is your responsibility as the UTV owner to read and understand these warnings as well as making sure anyone who operates the UTV is aware of the proper operation.
