

POLARIS RANGER XP 900® SIDE ENCLOSURE INSTRUCTIONS

1. Install adhesive backed Velcro to channel in roll cage frame corresponding to Velcro mate on side enclosure. The channel on the roll cage is shaped like an L. Adhesive Velcro will be centered in the L so half of Velcro strip is on each side of channel.
2. Hang side enclosure in channel using previously installed adhesive Velcro.
3. Remove screw at top of cowl near dash area. Install screw through grommet installed into side enclosure and tighten.
4. Attach all clips and clips with elastic to openings around side enclosure.
5. Install remaining adhesive backed Velcro bottom of doors and lower rear section of side enclosure.

Your new cover is guaranteed against any defects in material and workmanship for 1 year from the date of purchase. Should any problems arise, please contact your dealer. No warranty card is necessary.

WARNING: Prolonged exposure to direct sunlight may result in fading and/or tendering of the material. Do not store your Ranger with cover installed in direct sunlight. Damage resulting from prolonged exposure to direct sunlight cannot be warranted.

Your UTV has several warning and caution labels around the machine that may be covered when this cover is installed. It is your responsibility as the UTV owner to read and understand these warnings as well as making sure anyone who operates the UTV is aware of the proper operation.
