

YAMAHA® WOLVERINE X2™ SIDE ENCLOSURES

Installation Instructions

1. From side of WOLVERINE®, install side cover against roll cage/frame so straps will engage roll bar along the top, rear and sides. Covers will attach to outside edge of roll cage and should be level and straight with cage frame. Repeat for other side.
2. Zip Doors in place. (1 left, 1 right)
3. Before supplied Velcro® can be installed, you must clean areas with alcohol.
4. Install supplied Velcro® around sides and door openings corresponding to Velcro® mate on cover if desired.
5. Attach bottom of side enclosure zippered door to plastic on top of doors. Doors will be able to be opened while attached to doors if zipper is unzipped to where window turns down along windshield.
6. Doors can be zipped out and stowed on warmer days leaving only outer fabric on machine. It is also a good idea to zip out doors for interstate travel or where high speeds are maintained for long distances.

Your new cover is guaranteed against any defects in material and workmanship for 1 year from the date of purchase. Should any problems arise, please contact your dealer. No warranty card is necessary.

Your UTV has several warning and caution labels around the machine that may be covered when this cover is installed. It is your responsibility as the UTV owner to read and understand these warnings as well as making sure anyone who operates the UTV is aware of the proper operation.
