

Instruction Disclaimer

Dennis Kirk provides instructions to help our customers better understand how to install the products we sell. The instructions are exact copies of what the manufacturer includes with the product being sold.

That means the quality and accuracy of the instructions is solely dependent on what the manufacturer produces. We do our best to make the text legible and the pictures viewable. However, the end result depends largely on the quality of instructions the manufacturer provides.

Therefore, you will find that some instructions are not of the highest quality. Sometimes text is hard to read and pictures are not easy to see. At times you will find the overall look of the instructions to be less than professional. However, we feel it is better to provide what we have rather than provide nothing at all.

To the best of our knowledge the instructions and application information contained in the instructions is accurate. However, Dennis Kirk assumes no liability related to any errors that may be contained in the copy of the manufacturer's instructions we provide. Buyers are solely responsible to insure that product use is consistent with their application.

If you have any questions please contact us at customerservice@denniskirk.com or 800-969-7501 so we can further assist you regarding additional product information or any other business related questions.

Thank you for doing business with Dennis Kirk.

QUADBOSS UTV COVER

INSTALLATION INSTRUCTIONS

We appreciate your purchase of a QuadBoss UTV cover. The QuadBoss UTV cover is a heavy-duty, all-weather, water-resistant cover crafted of 100% polyester. The UTV cover has an elastic hem cord to ensure a tight fit.

THE FOLLOWING INFORMATION SHOULD BE USED TO ENSURE MAXIMUM LONGEVITY.

IMPORTANT

DO NOT use this cover to shelter your UTV when being trucked or towed on a trailer. When cover is installed, shelter your UTV from high winds.

INSTALLATION

Find the tag on the cover hem that says "PLACE THIS END AT THE REAR OF UTV".

Grasp the opposite end of the hem from the tag and lay the entire cover on top of the UTV

Pull it over the front of the unit over the front bumper area

Then pull the back of the cover (with the tag) over the rear of the UTV.

You will need to stretch the elastic hem to clear the tires, muffler, etc.

CAUTION

Do not put on UTV when the exhaust is still hot.

MAINTENANCE

It is normal for the cover's color to fade with extended exposure to the sun. Dust, dirt, and grime should be dusted off with a soft rag or cleaned with a sponge, warm water, and a mild soap or detergent. It should not be washed in a washing machine. Spread the cover out and fully dry it before using it again.
