

# Rear Cargo Rack, Polaris RZR Pro XP® Instructions

 [hmfracing.com/equipment/polaris-rzr-pro-xp/rear-cargo-rack-polaris-rzr-pro-xp/installation](https://www.hmfracing.com/equipment/polaris-rzr-pro-xp/rear-cargo-rack-polaris-rzr-pro-xp/installation)

## Installation

**!!! WARNING !!!** Before working on your machine, make sure it is parked on a level surface with the transmission in park and/or the parking brake engaged.

1. Remove the two torx head bolts on each side at the rear of the cargo bed as depicted.

2. Remove the two torx head bolts at the rear of the cargo bed near the handle as depicted.

3. Install the cargo rack by lining up the holes in the cargo rack tabs with the holes from the previously removed hardware.
4. Reinstall the original hardware to secure the cargo rack.
