Tools Required

None

Step 1: Place vehicle on a flat and level surface. Place gear selector in "Park" and remove keys from the ignition.

Step 2: Remove the plastic film from the windshield. Place the windshield onto the front of the vehicle. Install clamps[P2] by inserting into slots as shown. (Figure A)

Step 3: Loop the strap around the tube as shown. (Figure B)

Step 4: Fit the bottom of the window snug to the body of the vehicle. Pull each strap tight and attach velcro.

* This completes the install for a half windshield. (Figure C) Go to step 5 for folding windshield.

Folding Windshield

Step 5: When installing the folding windshield up, use the thick large velcro straps[P4] provided to retain the windshield. (Figure D)

Step 6: When folding the windshield down, loop the small velcro straps[P5] through the small slots as shown. (Figure E)

Step 7: This completes the installation. Time to ride and enjoy!

ProTip: Periodically check all hardware and re-tighten if needed.
